B. Lot Area, Frontage, and Yard Requirements

The following minimum requirements shall be observed except as defined in Open Space Transfer to Public Park in Article 13:

Land Use/Zoning District		Lot Area Requirement	Lot Frontage Requirement	Front Yard Depth	Each Side Yard	Rear Yard Depth
Single Family Districts	R-1	80,000 sf	200'	100'	40'	80'
	R-2	40,000 sf	150'	60'	20'	70'
	R-3	30,000 sf	125'	60'	15'	60'

Except as otherwise provided herein, any non-residential building accessory to a dwelling and/or a private swimming pool may be located in the rear yard provided it conforms to the side yard requirements of the lot and is placed 5 feet or more from the rear lot line. However, if placed within the rear portion of the rear yard, then it may be located 5 feet or more from any lot line; provided each and every part of the accessory building and/or swimming pool is closer to the rear lot line than to any part of the main building.

C. Corner Lots

Any corner lot shall have two front yards of the required depth, two (2) or more side yards of the required width, and a rear yard of the required depth. If no lot line exists that may be deemed the rear lot line, then the required rear yard depth shall be measured from a point most distant from the front lot lines at which two (2) side lot lines intersect.

D. Decreased Front Yard

The minimum front yard depth may be decreased on any lot in an "R" District whenever:

1. There is a dwelling on each side and within one-hundred (100) feet of said lot on the same side of the street and in the same block, and;
2. The average depth of the front yards of said dwellings is less than the front yard required by this Resolution for the proposed use on such lot.

In such case the required front yard depth of such lot may be the same or greater than said average, but not less than the front yard depth of any dwelling on a lot immediately adjoining.

F. Projections into Required Yards

Architectural features may project into required yards or into courts as follows:

 - d. Bay windows, balconies, or chimneys may project into a yard a distance not to exceed five (5) feet; provided, however, that the aggregate width of such projection shall not exceed one-third (1/3) of the length of the wall upon which they are located.
2. Subject to the limitations in the preceding subsections, the above named features may project into any required side yard adjoining an interior side lot line, a distance not to exceed one-fifth (1/5) of the required least width of such side yard, but not exceeding three (3) feet in any case.
3. Subject to the limitations in paragraph A, the features named therein may project into any required rear yards or into any required outer court the same distance they are permitted to project into a front yard.

G. Frontage on Cul-De-Sac

The front lot line of a lot fronting on a cul-de-sac may be reduced to less than the minimum frontage required, provided the average width of the lot and the width of the lot at the building line is equal to or more than said required frontage.

A minimum of sixty-five percent (65%) of each side of the exterior of the building shall be full sized standard brick or stone, excluding windows and doors. All other off-street parking and loading requirements shall conform to the General Regulations.

Section 9 **Lighting** (Revised January 7, 2008)

Each lot shall meet the frontage requirements of the zoning district in which it is located.
